GUILFORD HALF MARATHON & 5K

ATHLINKS Race Day App

- Free to download and use
- Guides you through event day logistics like parking info, site map, and vendor map
- Allows you to receive important announcements on your phone on event day
 - Weather updates
 - Parking lot updates
 - Start Line reminders
 - Open and Close time reminders for lunch
 - Etc.
- Allows participants to track their times and position on their route
- Allows spectators to track participants (within 100 ft of route) and their estimated finish time
- Allows participants to request assistance from the command center through the app
- Allows participants to post photos with Guilford Half Marathon & 5K branding and interact with social media.

Download ATHLINKS Race Day App today!

- Go to your app store and find “Athlinks Race Day”
- Download it
- Open it
- Search "**Guilford Half Marathon & 5K**" and select it
- This will now be your home page (see photo at left)
- Experiment with the app and try out the tracking feature
- Share the app with your friends who want to track you on event day C

On Event Day...

- Make sure you remember to have your phone with you on the route
- Make sure GPS is turned “on” on your phone
- Remember to “start tracking” at the start line
- You don’t need to keep the app open the entire time (you can use your phone for calls and other things), but make sure you don’t “log out” of the tracking feature. Logging out will make it impossible for people to track you. Do not use the orange “log out” button until you are finished with your route.
- Bring a portable battery charger if you are worried about your phone’s battery life while using GPS
- If you need to contact the Command Center, call them. The app contains the phone number as a reminder. Do not text them; they are a land line.
